EDUCATION

Universidade Paulista   Brazil
Computer Science Bachelors   Jan 2016 - Dec 2019

EXPERIENCE

Edsoma Reads | Senior Front-end Engineer   Austin, Texas, United States | Oct 2023 - Present
- **Full-Stack Development with a Frontend Focus:** Specializing in building and optimizing full-stack solutions, strongly emphasizing frontend development. My key technologies include **React, Next.js, Tailwind CSS, Astro, Node.js, and Solid.js**.
- **Teacher Platform Revamp:** Led the enhancement of the Teacher Platform by leveraging **Context API and Zustand**, improving **state management, performance, and user experience**.
- **Student Platform Development:** Collaborated closely with the team to design and build a seamless **student platform** tailored to user needs.
- **Reading Match Platform Refactor:** Refactored and rebuilt the **childrens book reading and highlighting platform**, significantly improving **code quality, performance, and scalability**.
- **Performance & Scalability Optimization:** Focused on **enhancing speed, scalability, and maintainability**, ensuring a **robust user experience and high-quality code**.
- **Admin Panel Development:** Built a **role-based, passwordless admin panel** that allows employees to efficiently manage **schools and students**. Developed using **Next.js, React.js, TypeScript, JavaScript, HTML, and CSS**.

Droz | Senior Front-end Engineer   Sao Paulo, Brazil | Mar 2022 - Oct 2023
- **Frontend Skill Lead:** As a Frontend Skill Lead, I led a team of four frontend developers, defining project and development standards.
- **Design System:** I led the creation of a Component Library and Design System using React and Tailwind CSS, which standardized the company's UI and significantly optimized the time required to launch new projects.
- **Legacy Migration:** I led the migration of legacy projects to modern technologies, utilizing React.js, TypeScript, JavaScript, HTML, CSS, and Next.js.

Conexa - an Aliare innovation Hub | Front-end Engineer   Goias, Brazil | Nov 2020 - Mar 2022
- Worked on a **legacy project**, updating technologies with a focus on **performance and scalability**. Significantly improved **page load speed** and implemented **unit tests** to ensure feature quality.
- Collaborated with a **high-performance team**, developing **scalable and accessible features**. Worked closely with other teams, contributing to **design and product decisions**.

XporY.com | Full-stack Engineer   Goias, Brazil | Apr 2019 - Nov 2020
- Contributed to the **migration of a legacy software** from **Angular.js to React.js**, significantly improving **software quality and performance**.
- Worked on both the **frontend and backend** of a **role-based administrative platform**, enabling employees to manage and control accounts efficiently.

Government of Goias | Intern   Brazil | Feb 2018 - Apr 2019
- Developed and maintained the **backend and frontend** of an **internal platform** for the **Government of Gois**. Leveraged **JavaScript, HTML, and CSS** to build innovative features and ensure smooth, reliable platform operations.

SKILLS

Programming Languages:	Typescript, Javascript, HTML, CSS, React.js
Libraries/Frameworks:	Node.js, GraphQL, Cypress, Next.js, RESTFull
Tools / Platforms:	Git, AWS, Postgres, MongoDB, MySQL

PROJECTS / OPEN-SOURCE

droz-visu | Link   *Typescript, React, Storybook, Tailwindcss, react-testing-library, Vite, github-packages, radix-ui, Jest*

Open Source Library of Components and Design System used by all Droz's products.

microsoft-azure-stt-logs-viewer | Link *Deno, Typescript, Fresh, Tailwindcss*

An open-source project I developed to solve a problem for companies that use Microsoft Azure's STT and need to retrieve large amounts of logs filtered. The project is currently used by the company Edsoma Reads.

portfolio-leandroppf | Link *React.js, Typescript, Javascript, HTML, CSS, Next.js*

A personal portfolio built with Next.js and Tailwind CSS was deployed with Vercel.

CERTIFICATIONS

- Bootcamp GoStack using Next.js, React.js, HTML, CSS, Node.js, React Native - **Rocketseat**
